EDUCATION

National University of Singapore

Aug 2023 - May 2027

Bachelor of Computing in Computer Science with a minor in Psychology

- Artificial Intelligence Focus Area - Certificate of Distinction
- Relevant Coursework: Computer Vision, NLP, AI Decision Making, Software Engineering, Data Structures and Algorithms, Product Design and Innovation
- Teaching Assistant, IS1108: Digital & AI Ethics — Facilitated weekly tutorials on AI governance, bias, and data privacy for ~30 undergraduates (Aug – Dec 2025)

WORK EXPERIENCE

Co-Founder, Lecture AI, Singapore (lectureai.co)

Jul 2025 - Present

- Founded Lecture AI to help students turn recorded lectures into structured, revision-ready notes through an end-to-end pipeline using Whisper, FAISS-backed RAG, and LLM summarization.
- Built features including bilingual summaries, topic segmentation, key concept extraction, and action items; recognized as a VIP@SoC finalist and backed by BLOCK71 incubation.

Data Science Intern, SP Digital (Data & AI), Singapore

Jan 2026 - Present

- Engineered enterprise guardrails for production LLM systems, implementing access control policies, grounding constraints, and retrieval boundaries to support safe deployment across two internal teams.
- Developed guardrail evaluation infrastructure with 400+ adversarial prompts, reducing unsafe model responses by ~60%.

AI Labs Intern, KPMG, Gurugram, Haryana

May 2025 - Aug 2025

- Built an agentic RAG system using LangChain and Azure OpenAI to enable fast, reliable retrieval across hundreds of internal consulting documents.
- Shipped workflows for source-PDF retrieval and structured Excel extraction, with top-4 citation links per response, reducing knowledge lookup time by an estimated 40-50% across 12+ person teams.

SDE Intern, AlygnAI, California, United States (Remote)

Jun 2025 - Aug 2025

- Led migration of WikiAI from a Bubble prototype to a production FastAPI backend, implementing secure authentication flows including JWT, refresh tokens, bcrypt hashing, and 2FA.
- Researched LLM adaptation strategies for the founding team — comparing LoRA/parameter-efficient fine-tuning against RAG — and contributed findings directly to product architecture decisions.

SWE Intern, StatusNeo, Gurugram, Haryana

May 2024 - Jul 2024

- Developed secure REST APIs in Java Spring Boot for a banking client, implementing JWT authentication and RBAC while writing JUnit tests to ensure reliability in an agile production environment.

LEADERSHIP & PROJECTS

Director of Human Resources, NUS Student Union (NUSSU) **Nov 2024 - Present**

- Led people operations for NUS's apex student body, designing onboarding and feedback systems supporting 100+ student leaders across cross-functional teams.

Operations Executive, NUS Entrepreneurship Society **Jun 2025 - Oct 2025**

- Managed operations for a tertiary-level tech innovation competition, coordinating mentorship sessions, logistics, and cross-functional team execution.

Professional Player & Team Captain, Chess **Apr 2015 - Present**

- Represented India at the 2019 Commonwealth Chess Championship; placed runner-up in a FIDE-rated tournament with 693 participants and earned Best Player at the IPSC U19 Championship (2022), leading NUS to Inter-Faculty Games victory.

Product Designer, Pediatric Tendon Stapler Project, NUS iDP **Jan 2025 - May 2025**

- Co-designed and prototyped an ergonomic one-handed pediatric tendon stapler; translated clinical user needs into design constraints, iterated on form factor with medical stakeholders, and presented final prototype at NUS iDP showcase.

Founder, Donation Nation, New Delhi, India **Oct 2020 - Jan 2022**

- Founded a donation platform during COVID-19 to connect donors directly with NGOs; coordinated logistics partners across multiple drives to deliver essential supplies to underserved communities.

SKILLS

- Programming Languages: Python, Java, SQL, JavaScript, TypeScript, HTML, CSS
- Backend & Infra: FastAPI, Spring Boot, PostgreSQL, Git/GitHub, CI/CD
- AI & ML: LangChain, LangGraph, FAISS, TensorFlow, PyTorch, scikit-learn, pandas, NumPy, Power BI
- Frontend: React, Next.js, Tailwind CSS
